First rugged tablet to Intel’s 7th Gen “Kaby Lake,” Xplore’s sleek, lightweight 12.5-inch/full 1080p

Despite being thin, the XSLATE R12 is a rugged tablet in its own right. The magnesium alloy construction of the casing is designed to protect the tablet from damages and impacts, making it suitable for use in harsh environments. The R12’s screen is particularly noteworthy, offering a full HD resolution of 1920 x 1080 pixels and a brightness of 500 nits, ensuring clear visibility even in bright sunlight.

The R12 features a robust design, with a front bezel that can withstand drops from up to 5 feet. The tablet also has an IP65 rating, making it dust- and water-resistant, ideal for use in environments where dust or water exposure is common. It supports various connectivity options, including WiFi, Bluetooth 4.2, and 4G/LTE, making it versatile for different applications.

Performance-wise, the R12 comes with Intel’s latest 7th Gen Kaby Lake processor, ensuring smooth and efficient multitasking. The tablet has 4GB of RAM and 64GB of storage, with the option to expand storage up to 128GB via microSD cards. It also supports expansion card slots for microSD and SIM cards, providing flexibility for data storage and network connectivity.

The R12’s battery life is impressive, offering up to 10 hours of continuous use, which is adequate for most workday demands. It has a 7200 mAh battery, providing ample power for extended use. The tablet also supports fast charging, allowing for quick battery top-ups.

In terms of expansion, the R12 offers various slots for accessories and peripherals. There are two USB 3.0 ports and a full-size USB 3.0 port, providing ample connectivity options. A 10/100/1000 Mbps Ethernet port is also included, enabling wired connectivity for those who prefer it.

The R12 comes with a built-in 8.0-megapixel camera, making it suitable for capturing images and video for documentation or collaboration purposes. It also supports dual-mode input, allowing for both touch and stylus input, offering flexibility in interaction methods.

The R12 is a versatile rugged tablet, combining the latest in computing technology with a rugged design that ensures it can handle the rigors of daily use in demanding environments. It is an excellent choice for professionals who require a durable yet powerful device for their work.

Sponsorship

Sponsors of RuggedPCReview.com get a prominent rotating banner with a company link on the front page of the site. Sponsors also get detailed, independent reviews of their products, conducted by the experienced editors of RuggedPCReview.com. Sponsors can supply their own vertical or horizontal banners for all of their product reviews. All reviews of sponsor products get their own internal navigation bar that leads to all other reviews of sponsor products. Sponsors also get their own “Industry Leader” homepage that may include company information, news, and Google search of the company’s website. Upon request, sponsors get “print-style” PDFs of their reviews.
